CAREER OBJECTIVE

As a Computer Science and Engineering (CSE) graduate with a strong foundation in networking and IT support and currently expanding my expertise in professional UX/UI design, I seek a challenging entry-level role where I can apply both my technical and creative skills to contribute to innovative, user-focused digital solutions and robust IT systems.

Technical Skills

- Proficient in user research, persona creation, and usability testing for user-centered designs.
- Skilled in creating responsive wireframes and prototypes using Figma and Adobe XD.
- Strong grasp of visual hierarchy, typography, color theory, and accessibility.
- Experienced in building design systems and collaborating with developers for clean, functional UI
- Designing and managing networks, including subnetting and IP addressing.
- Providing network support, troubleshooting issues, managing accounts, and monitoring performance.
- Working knowledge of HTML, CSS, Javascript, Wordpress.
- Figma, Adobe XD, Cisco Packet Tracer, VS code, PyCharm, Codeblocks.

Skills

Soft Skills

- Good in communication
- Problem-Solving
- Teamwork Sincere and Patient

TRAINING

Trainee, Professional UX/UI Design, Creative IT Institute
(December 2024 – June 2025)

Trained in UX Research, Wireframing, UI Design, and Prototyping with hands-on experience in Figma and Adobe XD. Skilled in designing real-world digital products and improving user experience.

Professional Experience

Intern, Office of IT, Southeast University
(February 2024 – June 2024)

- Assisted in the development and testing of the Supply Chain Management Module and Inventory System.
- Provided technical support for various IT-related issues within the university.
- Gained hands-on experience in software development, troubleshooting, and system maintenance.
